PROFESSIONAL SUMMARY

Full-Stack Developer with 2 years of experience building scalable web applications using Node.js, TypeScript, PostgreSQL, and React.js. Skilled in REST API development, authentication systems, database optimization, and performance tuning. Experienced in delivering production-ready enterprise solutions with clean architecture, maintainability, and scalability.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript
Backend	Node.js, Express.js, REST APIs, Authentication & Authorization, Zod Validation
Database	PostgreSQL, Query Optimization, Indexing
Frontend	React.js, Functional Components, Hooks, Reusable Components
Real-Time	WebSockets
Cloud & Tools	AWS (Foundational), Git, Debugging, Browser DevTools

WORK EXPERIENCE

Full-Stack Developer — Skandvel Webtech Private Limited, Madurai Aug 2023 – Present

- Developed scalable RESTful APIs using Node.js and TypeScript for enterprise and utility clients.
- Collaborated with international stakeholders to deliver high-availability systems with strict performance requirements.
- Built dynamic form builders, workflow automation systems, notification services, and PDF generation modules.
- Optimized PostgreSQL queries and indexing strategies to reduce response times.
- Implemented audit logging and history tracking mechanisms to improve system traceability.

PROJECTS

ConnectMe – Service Management Platform UK Client Project | Node.js, React.js, PostgreSQL

Developed a multi-tenant service management platform enabling customers to submit and track utility service applications. Implemented secure tenant isolation, dynamic workflows, and complex form processing.

NEET MCQ Platform – Online Examination System Node.js, React.js, PostgreSQL

- Built a scalable exam preparation platform with hierarchical MCQ and mock test modules.
- Implemented performance tracking and scoring analytics.

Valan Bay – Real-Time Mobile Auction Application React Native, Node.js, WebSockets

- Developed a real-time auction system with WebSocket-based live bidding.

EDUCATION

B.Tech in Information Technology — Jayaraj Annapackiam CSI College of Engineering 2019 – 2023

Final Year Project: Attendance Management System using Node.js, React.js, and PostgreSQL for automated attendance tracking and reporting.
